No. 43

## "Say, Lissen"

**A DOG BITING HIS TAIL IS LIKE A GOOD MANAGER—BOTH TRY TO MAKE ENDS MEET.**

## Harvest Conditions in the Didsbury District

It is impossible to give a very close estimate of harvesting operations in this district at present as the farmers are still in the midst of threshing. According to estimates as close as can be made at present not more than 50 per cent. of the big crop is threshed yet.

Splendid yields are being reported for this district and at the end of the threshing season the average yield per acre will be high. So far the wheat will average from 35 to 50 bushels to the acre, while oats are running from 80 to 105 bushels to the acre.

With the exception of one day the weather has been ideal for threshing operations in this district since the grain was cut and every farmer has taken full advantage to get his crops threshed.

Unfortunately for the west of the district frost has affected the wheat seriously, and while the yield is extremely heavy some of the grain is being graded extremely low, not because the elevators are grading close but because a lot of this grain is badly frosted.

Oats seem to be turning out extremely well. The yield is not only high, but some reports stating that as high as 105 bushels to the acre being obtained, but the quality is extra good.

## A Good Cause to Help Along

It is not often that the columns of the Pioneer have to make an appeal for assistance for worthy causes without getting some response, and it is again going to call on its readers to assist in a very worthy cause, one which will cost very little money, and yet give untold pleasure and satisfaction to a little crippled boy who lives in town.

This lad has been a cripple for almost all of the few short years of his existence and while a great deal has been done to try and effect a cure by surgical and medical means the probabilities are that he will have to go through life unable to enjoy the usual boyhood pleasures. His parents are not in a position to supply him with a cripple's chair as their means are limited, but if every person can give even a small donation of cash it will be the means of helping him to look after himself to a great extent as well as giving him great enjoyment.

The amount needed to get this

## Requested to Observe Silence Armistice Day

The Alberta government has been officially notified of the desire of His Majesty King George that the Dominion and provinces join with the motherland in remembering the empire's war dead, with two minutes silence at 11 o'clock on Sunday, November 11th.

Citizens everywhere are requested to reverently give thought to the soldiers who never came back from the great war by observing the above request from the government as well as His Majesty.

## Death of Mr. Bonar Law

The death of the first Canadian, born Premier of Great Britain occurred on Tuesday when Mr. Andrew Bonar Law passed away, septic pneumonia being the cause of death.

Mr. Law had been in poor health for some years but was persuaded to take over the Premiership in November of last year. The task was too heavy for him because of his poor state of health and he had to resign in May of this year. He was born in New Brunswick in 1858, consequently was 65 years of age.

## Estimated 60,000 Men Engaged in Threshing

Conservative estimates place the number of threshing outfits working in Alberta at 4,000 and it is generally accepted that these gangs average at least 15 men each, making a total of 60,000, most of whom are citizens of the province and entitled to vote in the plebiscite on November 5.

Whatever their views may be, both sides agree that this vote would be as big as possible as no doubt is wanted as to the issue, and bosses are urged to let their eligible men go to the polls.

## Women's Institute Will Conduct Poppy Day Campaign

We are glad to be able to announce that the Didsbury Women's Institute have undertaken the sale of poppies for Armistice Day, Sunday, Nov. 11th, in town.

Because Armistice Day comes on Sunday, and Monday is Thanksgiving Day (Nov. 12th), when all business places will be closed, the sale of poppies by the Institute will be held on the Saturday preceding.

Every person should wear a poppy on Armistice Day not only to commemorate our glorious dead but because the sale of these poppies help to create a fund to help the G. W. V. A., assist disabled veterans, and dependents, who are unable to take up their own cases for various reasons.

The poppies are all made in Canada which provides employment for a large number of disabled veterans.

Buy a poppy (10¢ for small ones, 25¢ for large ones) on Saturday, Nov. 10th, and help the good cause along.

Chair is small—40¢ will cover cost of chair and expenses—and should be easily met by a little generosity on the part of the public.

Mrs. H. W. Chambers is associated with the Pioneer in this appeal and those who wish to donate can send or bring their donation to the Pioneer which will acknowledge its receipt through its columns and hand the proceeds over to Mrs. Chambers.

## Report Upon Suspended Home Bank Causes Arrest Of Officials

Toronto. — Dramatic developments followed last night upon the issuance of the official report of Governor N. B. Hickey, charging the various investments in hazardous enterprises that dragged the Home Bank of Canada down to ruin after a career of 13 years in the general banking business.

President H. J. Daly, Vice-President H. P. Tough, and Directors E. J. H. Russell, Charles Wood, K.C., J. E. M. Stewart, all of Toronto, were arrested by provincial officers on charges of breach of the Bank Act. O. G. Smith, chief accountant, and Andrew Sydney H. Jones were also taken into custody.

The charges upon which the group are held are three, all laid under the Bank Act.

Against Messrs. Daly, Tough and O. G. Smith, it is charged that they did "negligently sign a false or deceptive statement respecting the returns of the bank."

Against Messrs. Russell, Stewart, Russell, and P. E. Smith, it is charged that they did "negligently approve or concur in a false or deceptive statement respecting the returns of the bank."

Against Mr. Jones, the auditor, it is charged that he did "negligently prepare a false or deceptive statement respecting the returns of the bank."

Proctor Ferguson amplified somewhat the government attitude by the following statement: "The board of directors, which is the basis of the government's prosecution, is that of fraud upon the public. The directors have apparently manipulated the books of the bank so as to mislead the public as to its solvency and induce them to continue to deposit their money, thereby committing a deliberate fraud. Moreover, to make matters worse, they have pointed out their accounts to try to make it appear that they were justified in paying dividends when the dividends were actually being paid out of depositors' cash."

"The only way to secure a thorough and exhaustive investigation is by a prosecution."

### Change of Water Change of Diet Change of Climate Cause DIARRHOEA

Mr. Fred Palmer, 217 Bellhouse St., Burnhamthorpe, Ont., writes: "When I first went out to the North-West the water played havoc with my bowels, and being in a remote spot I could not get anything to give me relief for any length of time."

I wrote and told my wife about the trouble I was having and she sent me a bottle of Dr. Fowler's Extract of Wild Strawberry, and I cannot speak too highly of it for what it did for me."

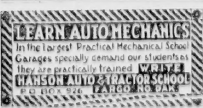

Whenever the children have any bowel trouble, my wife puts a little of this drinking-strange water, which they have done for the past five years, in use is Dr. Fowler's, and nobody should be without it as it cannot be too soon to get it."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 28 years, you don't expect much with new and untried remedies when you buy it, but be sure and get Dr. Fowler's when you ask for it as a minute may be dangerous to your health."

Price One bottle put up only by The T. Milliken Co., Limited, Toronto, Ont.

#### Orders Ranch Paintings

Calgary. — Lord Brewster has shown his appreciation of the beauties of Alberta by commissioning A. H. Kinney, of the Stratford studio, Calgary, to paint several landscapes of the E. P. ranch and the Highwood River, all adjacent to the ranch.

W. N. U. 1482

### WESTERN EDITORS

G. E. Jenkins, Editor and Proprietor of The Clarion, Cabel, Sask.

### Took Drastic Action

Toronto. Finance Commissioner Held Salary Checks For Income Tax

Toronto. — Delinquents of a considerable number of well-paid city hall employees in the payment of their income taxes led Finance Commissioner Ross a few days ago to take drastic action. He issued orders that the salary checks of those who had not paid their taxes be held until the taxes were paid. There were many protests, but the commissioner stuck to his guns, and as a result there are now no more.

An aftermath of the situation is the passing of an order by the Board of Control that a list of taxes owing by city employees be furnished to the board three times a year.

### Fur-Bearing Animals Are Being Depleted

Five-Year Closure Sought Proposed For B.C.

Victoria, B.C. — A five-year closure period on all fur-bearing animals in British Columbia probably will be proposed by the Provincial Game Conservation Board shortly to give the fur industry an opportunity to recover from the present depletion of these animals. M. B. Jackson, Chairman of the Board, announced.

"There is every prospect of a closed season on all fur-bearing animals in the entire province," Mr. Jackson said. Trappers and hunters agree that fur-bearing animals have been seriously depleted and that drastic measures are needed to prevent their extermination, he added.

#### Drugs Smuggled In Bible

Montreal. — Customs officers have destroyed a quantity of narcotics in a Bible technique through a consignment of books. The Bible had been hollowed out for the purpose.

## President Ebert Asks Retiring Chancellor To Organize New Ministry

### Women! Dye Faded Things New Again

Dye or Tint any Worn, Shabby Garment or Drapery

Each 15-cent package of "Diamond Dyes" contains directions so simple that any woman can dye or tint any old, worn, faded thing new, even if she has never dyed before. Choose any color at drug store.

### Radio Figures In Arrest

Number of Station Checks Broadcast From Cleveland

Montreal. — Radio was responsible for the arrest here of F. Lester Stowe, an employee of the Canadian Steamship Lines, who appeared in court charged with failure to pay a back tax.

Stowe is charged at Cleveland with theft of cheques totalling around \$1,500, and the numbers of these cheques were broadcast by radio from that city. The radio of the bank in which he was storing here got the serial numbers of the cheques, and when Stowe tried to cash his bank bill with some of the cheques, changes were held which will result in his deportation to Cleveland.

#### Good Yield of Marquis Wheat

Canfield. — A. E. Sander, owner of La Pelletier, had a piece of registered Marquis wheat which yielded 62 bushels to the acre.

Berlin. — Dr. Gustav Stresemann and the members of his ministry resigned from office and President Ebert then called upon the retiring chancellor to form a new cabinet.

The Stresemann Government retired from office with the accomplishment of passive resistance in the Ruhr and the Rhineland as the only active accomplishment to its credit. While criticism of its usefulness on this score would seem to be not entirely fair in view of the hopelessly tangled mess assumed by it as the successor of the Cuno ministry, the Stresemann coalition, in its political composition, was such as to preclude, in the long run, any hope of productivity in the nature of financial and economic reforms on account of the conflicting currents which hampered its deliberations.

With a theoretical Socialist in the ministry of finance and an industrial party man as minister of economics, one obvious point of criticism was promptly established. It led to the retirement of Hans Ranner, who held the latter post, as he had apparently wearied of carrying on a running debate with Dr. Hilferding on financial and economic dogmas.

#### Murders Were 13 In Number

Bombard. — The members of the Italian commission which investigated the recent killing of the Italian members of the Greco-Abdian from the delimitation committee has returned here. It is said the commission also stated that the murders of the Italian were 13 in number and that they were all armed with the same kind of rifles.

## Used After Shaving Keeps Skin Soft and Smooth

Many men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly. By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and Barber's Itch and Eczema are prevented or relieved.

### Severe Sentence For War Traitors

Decree Recently Given Life Sentence By German Court

Lepel. — Germany's highest court shows little mercy for men captured before it for treason in the great war.

Gottfried Stuy was recently given a life sentence for having betrayed his command in March, 1918. The court showed that he deserted the German army and went over to the French. A short time later, captured French artillery fire, against the entrenchments where Stuy had been serving showed that he had revealed all details of the positions to the enemy.

Stuy returned to Germany in 1926 and was arrested at his home in Muehlheim, and charged with high treason, which he admitted. The court was that he was badly treated by the superior and could not perform further military service.

### Old Folks Need A Mild Bowel Tonic

Constipation Best Overcome By the Occasional Use of Dr. Hamilton's Pills

### DR. HAMILTON'S PILLS

Because Active, Yet Very Mild, Old Folks Prefer Dr. Hamilton's Pills

Thousands of people, young and old, stop habitual constipation by using Dr. Hamilton's Pills. This mild, yet active medicine, is noted for its gentleness in restoring the bowels to a condition where they will perform their normal function at a certain time each day.

You'll improve your health, you'll eat well, digest well and look better when you regulate your system with Dr. Hamilton's Pills. — 25¢ at all dealers.

### B.C. Government Helps Japan

Contribution Will Be Used For Purchasing Lumber

Victoria, B.C. — The British Columbia government will contribute \$15,000 toward Japanese relief work. Hon. J. H. Macdonald, Acting Premier, announced. The Government's contribution toward Japanese relief will be used entirely for the purchase of lumber. The Provincial Government is making a gift to the Japanese Government of 125,000 feet of dimension lumber and 1,000,000 shingles.

#### Sask. Deposits In Home Bank

Toronto. — The Saskatchewan authorities on the suspended Hamilton bank, upon which the company has just retired, together with their amount of total savings and current account deposits, follow:

Amulic .....	\$19,622
Bathurst .....	28,050
Cal .....	116,307
Kelowna .....	16,162
Moose Jaw .....	212,976
Shackleton .....	30,001
Simsbury .....	82,062
Tanahill .....	92,836
Weyburn .....	143,144
Weyburn .....	97,106

#### To Briquet Char

Rebuck. — With a view of further testing the Hemite fields at Blount, 120 tons of char will be shipped to Regina, N.S., where it will be subjected to flood tide tests. The completed product will be returned to Saskatchewan and given a thorough test according to Hon. J. G. Gardiner, Minister of Labor and Industries.

#### Earthquake In Formosa

Osaka. — A number of earthquake shocks occurred at Taito, on the east coast of Formosa, Sept. 23, according to dispatches received here. Two of the shocks, which occurred in the early afternoon, caused considerable damage to houses and walls and it is feared there are casualties.

#### Advertise On Stamps

The Italian Government has decided to allow the placing of advertisements on its postage stamps.

## From Canada to Egypt

Dear Mr. Osmond.—Thought perhaps your readers might enjoy reading of our travels in the Pioneer. Best wishes.

Your friends,

The D. C. Ebys.

Leaving America, Sept. 12, 1922. At 5 p. m. a hell rang, our steamer churned the water at her stern, and with the aid of two or three tug, which turned her around, she moved slowly away from the Brooklyn docks.

Young missionaries on board, with most stunning news, waved their kerchiefs to friends whose forms were faintly visible on the dock. A smoky haze hung over New York's skyscrapers and the surrounding islands. A light breeze stirred the waters of the East River down whose mouth the pilot was guiding us out into the broad ocean beyond. This seemed the real start of the

## CO-OPERATIVE MARKETING

THROUGH a co-operative arrangement with the E. H. Heath Co. Limited, publishers of the Canadian Power Farmer, we are enabled to offer that farm magazine and this weekly for one whole year for the price of this weekly alone. This applies to either new or renewal subscribers.

The editorial programme of the Canadian Power Farmer for 1924 includes:

1. A series of articles on the plow and its proper use.
2. Farm planning and windbreaks, or how to develop the farm and protect it.
3. What is the cost of raising a bushel of wheat?—as laid by actual farmers.
4. Is the tractor a necessary part of a farmer's outfit?—actual farm experience that answers the question.
5. Co-operative marketing—can it be successfully applied to a grain-raising country?
6. Suggested ideas for the betterment of farming conditions in Western Canada.
7. How much equipment is one farmer and how in buying for quantity, half and section farms?—as laid by actual farmers.

In addition to the above, each issue will contain live, seasonable, general articles, short stories, household and boys' and girls' departments, etc.

As this is a special offer, we would advise that you take advantage of it as soon as possible.

Send all subscriptions to this paper.

WEDNESDAY, OCTOBER 31st,

trip. Evening soon came on, and New York's millions of lights came out to us through the misty haze, and presently came a mere reflection of the city's lights. On our left, dotted at intervals with lights, loomed a long black outline, the last of us were to see for many days. A couple of hours out from New York, we came upon the pilot boat. We watched them lower a small boat and come over to our ship to take off our pilot, who would doubtless wait there for a time, and then go on board some incoming ship to guide it safely into New York, for this is the work of not captains, but of pilots.

## Days Dead and Gay

Everyone longs, at the beginning of a voyage, for a few calm days in which to become adjusted to sea life. But next morning the sea was rough, and practically everyone was sick. This was no doubt owing to the fact that we second class passengers had our cabins at the stern, where we got most of the motion in the waves. As she lurched and wallowed in the waves. This kept up for several days, but after the first day most of us became sufficiently accustomed to the motion to enjoy sitting quietly on the deck, though few of us cared to move about much. However, there is a beauty about even our gray days, that one can find if so minded. The cold mist stood like a gray veil on every side to shut us in from the world. Little trickles of water would then run across the deck, and the soft drip drip, from the rigging above had a friendly sound. Patches of blue began to appear between the clouds looking faded as from much washing.

Some enjoyed this space of quiet that they might snatch a little rest, strength after the crowded, hurried days of leave taking, and gather themselves together for the resumption of future burdens.

Others there were whose youth rebelled against this stillness, and who desired the flurry of activity and the consequences of something always in the doing. Yet for most of us these were quiet days that God had given for the renewal of our strength, and the balancing of much, tired nerves. The tumult of New York, with its clang of wheels and bells was left behind, and our ears recovered in the soothing silence of nature, making one realize that some of the weariness one feels when in city is the result of the incessant resistance required of one's nerves against the nerve-racking and accumulative assault of small noises.

## First Sight of Land

Calm, uneventful days passed while our steamer continued to measure and mark the ocean with the white streak of her log line. By the morning of the eleventh day, everyone was tired of the monotony, and eager for the first glimpse of land. Over the waves white gulls now came flying, calling to one another, and announcing to us that the coast of Spain must be near.

Early in the afternoon, a dim outline became visible, so cloudlike in its appearance that some of the young missionaries could scarcely bring themselves to believe that it was land. Before evening the coasts of Africa and Spain stood out in bold relief, directly before us.

We had had exceptionally few sunsets along the way, but the one that evening was a triumph of gold and crimson, melting into the sky and ocean. While the red orb of the sun hung ready to drop into the ocean on the west, the moon, which had peered up unknown to us, hung red and full just above the waters of the Straits on the east. Both looked startlingly alike and as one miscreant from India put it, they seemed to be alternating to each other from opposite sides of the ocean.

We came into the Strait of Gibraltar at night under a glorious sky. On our left lay the Great Rock, and twenty-two miles across from it, on

Meaning thereby, a CONTINUANCE and DEVELOPMENT of the present Liquor Legislation; that is, meaning the ABOLITION OF THE SALE OF ALL LIQUORS excepting for strictly Medicinal, Sacramental, Manufacturing and Scientific Purposes.

# 1

### (b) Licensed Sale of Beer—

Meaning thereby, the Sale of Beer in Licensed Hotels and other Premises, as provided in the proposed Temperance Act.

### (c) Government Sale of Beer—

Meaning thereby, the Sale of Beer by or through Government Vendors for consumption in Private Residences under Government Control and Regulation—other Liquors to be sold through Doctor's Prescription for Medicinal Purposes.

### (d) Government Sale of All Liquors—

Meaning thereby, the Sale of all Liquors by or through Government Vendors. Beer to be consumed on licensed Premises and in Private Residences. Wines and Spirits to be purchased in limited quantities under permit issued by the Government, under Government Control and Regulation.

## REASONS WHY!

1. BECAUSE Prohibition in Alberta is splendidly making good.
- (1) In 1915 it cancelled the licenses of 250 hotels, 51 wholesale liquor stores, 11 clubs, 3 dining cars, 427 bartenders and 22 salaried men.
- (2) In 1920 it ended the importation of all alcoholic liquors for beverage purposes.
- (3) In 1921 and 1922 it tightened up the Liquor Act in some points, appointed a Commissioner to promote its enforcement, and in conjunction with the Federal Government took steps to deal effectively with the "illicit still" nuisance.
- (4) In 1923 it closed out all liquor warehouses in the Province and greatly curtailed the prescription abuse in Edmonton and Calgary.
- (5) It has decreased the expenditure for alcoholic liquors from over \$14,000,000 in 1915 to less than \$1,000,000 in 1921, and has reduced the proceeds from the Government sale of liquor for permitted purposes from \$2,760,152 in 1920 to \$1,624,808 in 1922.
- (6) It has reduced the jail population from 610 in 1915 to 336 in 1922.
- (7) It has reduced convictions for drunkenness from 7,283 in 1913 to 1,608 in 1922.
- (8) It has reduced the number of Summary Convictions and Indictable Offences from 19,426 in 1913 to 9,847 in 1921.
- (9) It promises further development of the present liquor Legislation.
2. BECAUSE Clauses (b) and (d) on the ballot mean a return to the licence system that was voted out in 1915 by a majority of 20,785.
3. BECAUSE Clauses (c) and (d) would re-establish the Liquor Traffic in its worst form — a Government monopoly.
4. BECAUSE Clause (d)—the first choice of the Brewers, Hotelmen, and Moderationists—represents a vicious and discredited system of dealing with the

Liquor Traffic, viz., Government sale.

5. BECAUSE Clauses (b) and (d) plainly mean a return to the BAR and its fellow—the Treating system.

"BEER TO BE CONSUMED" ON LICENCED PREMISES"

6. BECAUSE Clauses (c) and (d) mean the introduction into the Homes of Alberta of Strong Drink and all its attendant evils.

"FOR CONSUMPTION IN PRIVATE RESIDENCES"

7. BECAUSE I stand for:—

(1) The protection of the citizen from his worst foe—the Liquor Traffic.

(2) The Peace, Purity and Prosperity of the Home. No-booze beverage in the cupboard or cellar.

(3) The Decency of the Community—No bar.

(4) The Honor of the State—No Government sale.

BECAUSE I stand for the total abolition of the Liquor traffic—that dirtiest, cruellest most destructive business on the face of the earth.

SO HELP ME GOD!

## To The Householder

A reply to the "householder" circular which has been distributed everywhere by the Moderation Leagues.

First of all, nothing has aroused such righteous indignation against the sponsors of the Moderation League as their little article to the women of Alberta on page 2 of the "householder". They are endeavoring to blame prohibition for causing "bootlegging". Now, I myself know that the old liquor interests are mostly the cause of it. I was told personally by a citizen who has since been convicted and fined for illicit liquor manufacturing, that he was supplied with a recipe for making liquor at home, by a liquor firm, and he stated that anyone could get the recipe. This is just one instance to show how the liquor interest sponsor home brewing and the bootlegging business. Furthermore, though there may be some, I do not know of any persons who are moderationists who have not been connected in some way with illicit liquor selling, consumption or protection. I do know that during the old liquor regime more of the whiskey sold in licensed places was homebrew and adulterated stuff, than

properly distilled varieties. Champagne also was adulterated and the individuals who were skilled in the manufacture of adulterated liquor were also interested in the bootleg. The Moderationist claim that inmates of hospitals are in league with temperance movements is as absurd as their claim that Prohibitionists and bootleggers walk arm in arm. And they expect intelligent people to believe them. It all goes to show that they really want easier conditions under which to carry on their illicit trade in liquor and vice, than Prohibition affords.

Now we proceed to the temperance question. What reason can the liquor interests give for spending vast sums of money in the attempt to defeat Prohibition? They give many reasons (?) They do not tell us that they are really doing it with the hope of increasing the liquor business and making increasing profits. We have long since learned that we cannot trust the liquor interest and their methods of trying to defeat appetites for liquor in our innocent boys, thereby creating greater demand for "booze" and larger profits. Liquor manufacture and sale has always been carried on by a class of people who have not been noted for their respect for law. In this respect it resembles bootlegging. The same law-abiding (?) class of persons would again enter the business of selling liquor under the same conditions would result. The fact that the liquor business is better dressed these days in a now and more respectable suit, does not change the nature of the business. They expect intelligent people to support them. Experience has taught us that they dare not be trusted themselves. Yet under any form of liquor sale, license or control the bootlegger and the law-breaker will flourish just the same, only it will be harder to detect him than under Prohibition.

1. They tell us—"Prohibition is a failure." Yet they sponsor the desecration and transgression of the Prohibition laws and help to protect the law-breaker simply to bring Prohibition into disrepute. The very fact that the liquor people (Moderationists) hate Prohibition, is an argument in its favor.

2. They claim that Prohibition is not temperance, for the reason that temperance should stand for the enlightened control of the sale and consumption of alcoholic beverages, coupled with educational propaganda against intemperance. They claim that prohibition is contrary to true democracy because it interferes with the liquor traffic. They propose as one of their means to control the traffic, the establishment of places for the drink addict and thereby treating the poor unfortunate in the same as any other irresponsible, by placing him under some form of guardianship or control, and in almost the same breath they condemn Prohibition because they claim that it interferes with personal liberty. When has the liquor business shown half as much interest in human welfare as they now appear to do in individual freedom, in order to make men slaves to the drink habit? Suppose all the liquor addicts in Alberta were to be put under guardianship as the Moderationists propose, the very ranks of the Moderationists would be seriously depleted.

3. They blame Prohibition for the present financial depression in Alberta. We all know that that is the Moderationists' proposal, as the Moderationists propose, the effects of the war and certain capitalistic or monopolistic influences. Were the liquor interests to win our

situation would be pitiable indeed. The return of the liquor business would greatly hinder the return to better conditions.

4. As far as the immigration question is concerned, when conditions are made right (and the carrying of clause B, C, or D, would not help to make them right) we will certainly get the right class of immigrant to populate our idle lands. Heaven help us if we must go into the liquor business to obtain immigrants. Liquor addicts of other countries are not the settlers Canada needs or wants.

In these hard times many husbands are making a fair living for their families, who in the days of free and unlimited supplies of booze and when times were more prosperous (not because of booze however) left their families in destitute conditions.

5. They also endeavor to present arguments favoring the drinking of alcoholic beverages, based on the Bible. This very attempt shows to what extent alcoholism has already destroyed their reasoning powers.

Anyone basing arguments for "booze" on bible teaching has something seriously wrong with their think tank. Let us get down to a little intelligent study of what the bible teaches concerning drinking of alcoholic beverages. Three different words are used for beverages, "Yayin", meaning drinks made from the vines, both unf fermented and fermented. Another word, "Grok", always referred to unf fermented wine or fresh grape juice. The third word "Shekar", always referred to fermented or alcoholic drink. Read just a few of the eleven references where this last word is used—Leviticus 10: 8-9; Isaiah 5: 12-13; 1 Thessalonians 5: 6-8. The Bible nowhere disapproves of the use of unf fermented wine or the fresh juice of the vine, but it everywhere condemns the use of fermented liquors. How intelligent people can ever connect "booze" with Jesus Christ, on the authority of the bible is an unsolved puzzle. The bible plainly teaches that the use of intoxicating liquors is sin, and this teaching is nowhere contradicted in the bible, as the Moderationists claim in their circular to the householder.

Let us also meet them in the moral and physical aspects of their argument. They refer to the bad physical effect of the bootleggers' homebrew. I am positive it could be no worse than some of the adulterated (doped) liquor I have seen passed over the licensed bar. I have seen men at the point of death through the poison received at a licensed bar. Under clause "D" the same stuff would be sold by the same people in much the same way.

Furthermore, alcohol is destructive to mind and heart action, no matter how moderately it is used. The best scientific authority condemns its use and as a medicine, calls it a "non-essential".

My appeal to all who have children entrusted to them is, let us go to the poll on November 5th and do our duty as the Moderationist has invited us to do but let us remember that our highest duty is to make conditions agreeable to the best physical, social, mental and spiritual development of our boys and girls. That means—vote 1 for clause "A". We are dealing with the same old liquor traffic in a nice new suit, coming to us somewhat as a wolf in sheep's clothing, ready to destroy human life for personal financial gain.

Don't let them fool you! Mark 1 after clause "A".

A Father of Two Boys,  
Westcott, Alberta.

## "IN A NUTSHELL."

Three Real Reasons Why They Ask You to Make "D" Your First Choice.

- (1) BECAUSE they want to drink more—more freely than Prohibition permits them to do.
- (2) BECAUSE they want to make more money than Prohibition permits them to do.
- (3) BECAUSE Prohibition makes it hard to carry on certain evil traffic which depends on "booze" to help them along.

What do YOU think of the combination?

Vote "D" 1 and you help them along.

Vote "A" 1 and you break them up.

The Moderationists are spending most of their time declaring that their plan will not revive the bar. But they fail to show the public in what way drinking at a table is not so harmful as taking it standing up in front of a bar.

# Make Prohibition in Alberta Progressively Efficient by Voting "I" After "A"

PROHIBITION CAMPAIGN COMMITTEE

# REDUCED TAXATION

## A vote for Government Control means:-

GENERAL PROSPERITY AND STABILITY — BALANCING THE PROVINCIAL BUDGET—REDUCED TAXATION AND INCREASED PROVINCIAL GRANTS—PROVINCIAL-WIDE GOOD ROADS—TOURISTS—REVIVAL OF AGRICULTURAL EXHIBITIONS—STEADILY INCREASING LAND VALUES—MORE LAND SEEKERS WITH CAPITAL—INCREASED MIXED FARMING (THE FARM HOUSEWIFE'S PRIVATE BUDGET)—MORE PUBLIC WORKS AND DRAINAGE—THE BANISHMENT OF THE BOOTLEGGERS—A BIGGER, BETTER AND HAPPIER ALBERTA.

### A FEW FACTS

Last year the Premier of Alberta said the Provincial deficit would be \$272,000; at the end of the year it was actually over \$1,900,000.

This year he claimed the deficit would be \$1,010,000. Preliminary figures show this estimated deficit already exceeded.

Increased taxes have been placed on insurance companies, slot machines and oil leases. What next? The farmer knows now just what the supplementary revenue tax means.

Do the public want more taxes, or do they want the Government to get the millions now going to bootleggers?

Quebec with decreased drunkenness benefited to the extent of \$4,500,000. With a general tourist revenue of \$100,000,000.

B.C. with less drunkenness benefited over \$2,500,000 and an increase of \$85,000,000 revenue from tourists.

The answer and cure remain with you.

## Vote 1 for Clause D

### MARK YOUR BALLOT THUS:

(a) PROHIBITION—Meaning thereby a continuance and development of the present liquor legislation; that is, meaning the abolition of the sale of all liquors excepting for strictly medicinal, sacramental, manufacturing and scientific purposes.

(b) LICENSED SALE OF BEER—Meaning thereby the sale of beer in licensed hotels and other premises as provided in the proposed Temperance Act.

(c) GOVERNMENT SALE OF BEER—Meaning thereby the sale of beer by or through government vendors for consumption in private residences under government control and regulation, other liquors to be sold through doctors' prescription for medicinal purposes.

(d) GOVERNMENT SALE OF ALL LIQUORS—Meaning thereby the sale of all liquors by or through government vendors, beer to be consumed on licensed premises and in private residences; wines and spirits to be purchased in limited quantities under permit issued by the government, under governmental control and regulation.

### Here and There

In order to handle the grain this fall the Fort William, Ont. force of 500 elevator men will be increased to 700. From 120 to 160 grain trimmers will be employed.

For the five months to August, 1923, Canadian newspaper exports were valued at \$55,908,043 against \$27,257,382 for the same period in 1922. Pulp exports in the same period were valued at \$26,008,461 against \$16,075,535.

Grain loading on Canadian Pacific lines during the month of September totalled 26,376 cars or 88,245,000 bushels. This at the beginning of the loading season which was two weeks into this year on account of the retarded harvest.

This has been the greatest reason for automobile tourists. Montreal has over experienced, according to the Secretary of the Automobile Club of Canada. Cars, he stated, had come into the city over the King Edward Highway at the rate of two hundred a day, an unusual number from California, Florida, Carolina and Virginia being noticeable.

There was nearly \$160,000,000 increase in the total trade of Canada for the first five months of the current fiscal year, according to a return made by the Department of Customs and Excise. The total trade of the Dominion, according to the return, for the five months ending with August, was \$780,000,000, as against \$620,000,000 during the same period a year ago. Imports during the period were about \$393,000,000, as against \$303,000,000 a year ago, while exports of Canadian produce rose from \$316,000,000 approximately to \$386,000,000.

There is a heavy demand for bushmen, according to the Government Labor Bureau at Montreal. The big lumber companies have been engaging men for the bush, and the prospects are that the demand will be sufficient to make fall and winter conditions good. Wages paid this year by the lumber companies are higher than last year, the rates paid being \$40 and \$45 a month, whereas a year ago the schedule was down to \$26 a month.

With the completion of the harbor works now in progress, Montreal will be in a much better position in 1924 to handle a record flow of grain than ever before. Windmill Point elevator will be increased by 1,250,000 bushels storage capacity, making its total capacity 3,250,000. Four additional shipping berths are being provided at this elevator and will be in commission early next month, and the elevator's loading capacity will be increased from 50,000 to 80,000 barrels an hour.

Reports to the Canadian Pacific Railway, show that there arrived at Winnipeg from the British Isles this year for the purpose of working on the harvest, 11,883 men. Special efforts are being made to find occupation for as many as possible to cover the winter period, and it is stated that it is now probable that a considerable number of these harvesters from Great Britain and the Irish Free State will remain in the Dominion.

Addressing a recent meeting of the Vancouver Board of Trade, President E. W. Beatty, of the Canadian Pacific Railway, announced that the company proposed immediately to add two large modern steamers to its fleet in order to take care of increasing tourist traffic over the company's coastal lines. He also announced the early completion of a new pier at this harbor at a cost of several millions, which he has been making necessary by the steady development of Canada's trans-Pacific trade.

### Some "Don'ts For The Farmer

We have been requested to publish the following letter clipped from the Alberta Farmer.

Editor, The Alberta Farmer.—I have seen several letters from time to time written by agricultural writers and printed in the columns of your paper relative to farming and farmers in general. The purport of most of them being to show that if farmers were not such a shiftless and lazy bunch they would all be wealthy. Therefore, I, who have had some years practical experience, am writing this for the guidance of the farmers already on a farm in Alberta under present conditions. First of all, do all your own work. You can't afford to hire help.

Don't buy anything you can possibly get along without.

Don't patronize the bootlegger. Cut out tobacco, it is a luxury you can't afford.

Don't keep a telephone in the house, it is expensive, and besides, you waste too much time in futile efforts to arouse central, and when your patience is exhausted, and she finally condescends to ask you what you want, and promptly bitches you onto a wrong number and goes off for another nap, you leave the instrument feeling wicked and vindictive, and are liable to do injury to your livestock when you go to the barn.

Don't keep an automobile as it is an expensive luxury no farmer can afford, and is only intended to be used by peddlers, collectors, bootleggers, bail adjusters and the army of public nuisances that overrun the country in the fall of the year, with shotgun, frightening your cattle and setting fire to your winter pasture.

Don't insure your crop against hail or you will find after harvest that it will take the proceeds of your entire crop to pay your share of the salary of the management and the army of adjusters that have been employed to operate the company.

Don't subscribe to a daily paper, as you have no time in daylight to read it, and coal oil is a luxury that requires to be handled with caution.

Don't go to church on Sundays, as you will be expected to put some thing on the collection plate, and even buttons are expensive, and anyway, it will take the entire day to do the week's chores.

Don't expect to get financial assistance from the banks to carry on your business, for the bankers are a body of gentlemen of unimpeachable character and are not going to loan their depositors money to help out such non-essential things as the mere production of food.

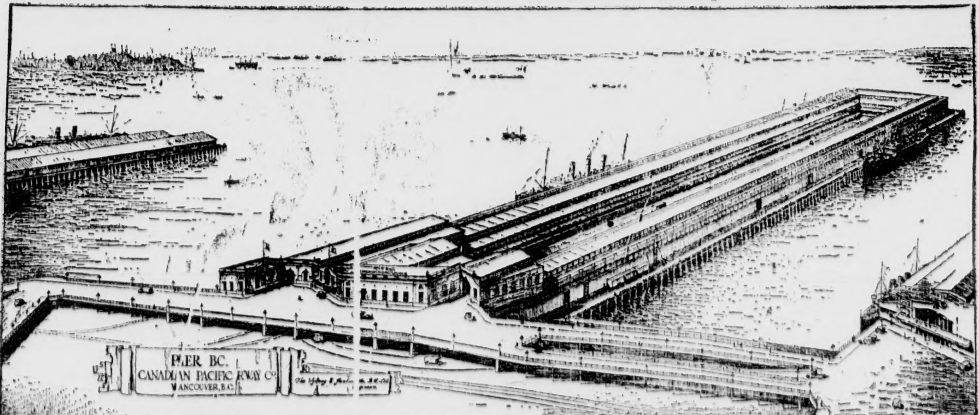

By following these few simple rules combined with a fair amount of luck, you will probably find at the end of the year that you have managed to accumulate enough money to pay your taxes with.

G. F. LEE  
Mildred, Alta., Oct. 7, 1923.

## Giant Canadian Pacific Pier Under Way at Vancouver

THE growth of Vancouver and the ever-increasing trans-Pacific trade of this seaport has necessitated the construction of a new pier, one of the largest on the continent, for the accommodation of the Canadian Pacific Empress liners. According to an announcement made by E. W. Beatty, K.C., President of the Company, at Vancouver recently, the pier, which is to be known as Pier B.C., will be of modern concrete design, capable of berthing the largest vessels trading to and from this port. It will be 1,100 feet long and will extend from the shore between First A, Burrard St., and Pier B, Granville St., on Burrard Inlet. An outlay of several million dollars upon the work and the associated buildings will be involved.

# ADPPOSE

For particular people—

It smells so fresh and good when you open the can, and the fragrance when brewed is well nigh irresistible.

## An Excellent Proposal

Hon. Charles Hughes, Secretary of State for the United States, was the guest of honor recently at a dinner in Montreal given by the Dominion Government and in the course of his speech offered a suggestion which it is to be hoped will not be allowed to remain merely as a suggestion but become a reality in the international relations between the two countries.

Expressing the belief that possible economic rivalries of nations would, like armaments, be kept within reasonable limits by fair international agreements "not too distant day," Mr. Hughes went on to say that all things possible if nations are willing to be just to each other, and in a personal word to his Canadian audience he suggested the creation of a "permanent body of our most distinguished citizens" to act as a commission on the United States and Canada.

Elaborating on this suggestion, Mr. Hughes said: "We have at this time under our treaty of 1892, relating to boundary waters and questions arising along the boundary between Canada and the United States, an International Joint Commission with powers of investigation and report within the scope of the treaty. While I do not undertake to speak officially upon this subject, I may take the liberty of stating as my personal view that we should do much to foster our friendly relations and to remove sources of misunderstanding and possible irritation, if we were to have a permanent body of our most distinguished citizens acting as a commission, with equal representation of both the United States and Canada, in which automatically there would be referred for examination and report as to facts, questions arising as to the bearing of action by either Government upon the interests of the other, to the end that, each reasonably protecting its own interests, would be so advised that it would avoid action inflicting unnecessary injury upon its neighbor. We refuse in our long friendship and in permanent peace, and it would be a short-sighted view that either of us has an interest which is to be promoted without regard to the well-being of the other and the co-ordinate treatment which conditions good will. We have formed the habit of peace, we think in terms of peace. Differences arise, but our consciences in each other's actions of justice and peaceful intent remain unshaken and dominates our purposes and plans. The only pathway of peace is that in which our peoples are working together."

The truth of these observations calls for neither emphasis nor elaboration. Any other condition between these two great English-speaking neighbors would be impossible and unworkable. In matters where each country has a proprietary interest we have already succeeded in working an amicable settlement of any differences of opinion which have arisen.

But there have been occasions when, in dealing with matters of purely domestic concern and policy to one country, decisions have been reached and actions taken which have had an injurious effect upon the other. For example, it is well within the power and prerogative of the United States to prohibit the export of raw wool to Canada, and even admitting that certain circumstances might indicate that such prohibition would be in the interests of the United States, it would seem hardly and even ruin to Canada Canadian interests. In like manner it might be advanced that prohibition of export of pulp and pulpwood from Canada would result in giving a further stimulus to the manufacture of paper in the Dominion, the employment of more people, and the development of export of a finished article instead of a raw or semi-manufactured product. But it would impose unnecessary hardship and loss upon the United States.

The adoption of such policies would lead to friction, irritation and possibly result in a general war of economic retaliation which would be bad for all and mean loss to both countries. Therefore, while it is undoubtful that either country should not use economic retaliation as a tool of economic oppression or control over its own domestic affairs and policies, it should because the accepted policy of each country to consider the effect on the other of any fiscal, tariff, embargo or other economic policy it may contemplate, shipping, and in the framing of such policy, endeavor, while protecting and advancing its own interests, not to do injustice to or work any hardship on the other.

Even without any formal treaty of friendship between the United States and Canada it should be possible to reach to recognize with the other in all matters wherein the interests of both are involved, and Mr. Hughes suggests that the creation of a permanent body of representative citizens of both countries to inquire into and report upon questions coming within this category for the guidance of the two governments is an excellent one, worthy of acceptance. It is to be hoped, therefore, that the suggestion will not be forgotten and allowed to die.

## Make Cuticura Your Daily Toilet Soap

Clear the pores of impurities by daily use of Cuticura Soap and occasional touches of Cuticura Ointment as needed. They are used for the toilet as is also Cuticura Talcum for powdering and perfuming.

## An Uncommon Adventure

Old Violin Had a Remarkable Series Of Misadventures

An aged violin, made in France in 1877, has just been having a remarkable series of adventures. The instrument, which was valued at \$2500, was stolen while its owner was on a tour in Western Canada. It was finally traced to Montreal by the Royal Canadian Mounted Police, where it was recovered. While it was being taken back to Canada, however, the car in which it was being carried overturned and the precious cargo was smashed into eight pieces.

Nothing daunted, the musician—on the wreckage of an expert in Washington, who understood, to patch it up. This has now been completed, and so skillfully has the work been done that the tone has in no way been impaired.

If people didn't have to work they would have more time to get fixed up during building.

Minard's Lintment For Headache

## Hidden Treasures

Gold and Jewels That Have Been Buried in Davy Jones's Locker

Reports that divers are about to begin operations in an attempt to discover the exact whereabouts of the liner Egypt, sunk off the French coast last year, and to recover precious gold that went down with the ship have prompted a French newspaper to recapitulate the many "treasures hidden away deep down in the sea. Although it is impossible to estimate the amount of gold lost in such circumstances, there are other things, of which the average person is unaware, buried in Davy Jones's locker in futile efforts to recover which huge fortunes have been spent.

One of the most precious gems ever lost lies several fathoms deep off the Brittany coast, consigned to the sea when two boats came into collision in 1862. Known as the Blue Diamond of the Red Sultan, it was once the property of Marie Antoinette, and others before her, who similarly met tragic fates. The last owner was drowned when the gem was lost.

It was first the property of Abul Fathima, who conceived it during the French Revolution. Although this stone is not likely to claim any further victims, it certainly has ruined many fortunes, as it is estimated that hundreds of thousands have been expended in vain efforts to recover it already have cost close to \$1,000,000.

## SYMPTOMS OF DEBILITY

How to Tell Whether Your Blood Needs Revitalizing

The symptoms of general debility are according to the cause, but weak blood is always present. A tendency to temperate and fatigue easily, ringing in the ears, sometimes black spots pass before the eyes, weak back, vertigo, weakness caused by inability to stand, and an increasing sleep. The cause of the trouble may be some drain on the system, or it may be mental or physical overwork, sometimes insufficient nutrition due to digestive disturbance.

If you have any or all of these symptoms, the building up blood with Dr. Williams' Pink Pills, and as the blood courses through your veins there should be an increase in your appetite, a better digestion and, as a result, of strength and vigor. You can secure this invigorating and healthy medicine by mail, post-paid, at the box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Live Poultry Shipment

An experimental shipment of 2,500 live hens, culled from poultry flocks in southwestern Manitoba for Montreal, was taken on a train with a view to ascertaining whether or not the sending of old birds alive to distant markets is practical.

## Baby Cutting Teeth Was Very Sick With Diarrhoea

When the baby starts to cut its teeth, especially during the hot weather, or then is the time that the poor mother is under the stress and strain of great anxiety.

There is no remedy so safe and efficient in the treating complaints of infants as Dr. Fowler's Extract of Wild Sassafras, no remedy that has had the endorsement of so many Canadian mothers during the past 75 years as has been the market.

Dr. C. W. Myers, Chawlin, Man., writes: "My baby girl was very sick with diarrhoea when she was cutting her teeth. I tried several different remedies, but nothing did her any good. She was getting worse when my mother sent me out a bottle of Dr. Fowler's Extract of Wild Sassafras. I gave her a few doses and the next day she was much better, and in a couple more days she was as well as ever."

Now I almost regret Dr. Fowler's in the house and recommend it to all those troubled with diarrhoea."

Price: Six bottles sent up only by The T. Mithras Co., Limited, Toronto, Ont.

A girl in Johannesburg recently ran for fifty-six hours. The report doesn't say whether the man got away or not London Daily News.

MURINE NIGHT-MORNING EYE-KEEP YOUR EYES CLEAN, CLEAR AND BRIGHT

## Has Valuable Secret

Rumanian Inventor Claims to Be Able to Keep Harbors of Quebec and Montreal Open in Winter

Dimitrie Joanowitch, Rumanian inventor, who claims to be able to keep the harbors of Montreal and Quebec open for Cabot Straits open for winter navigation, is asking the sum of \$2,500,000 as recompense for his services.

Mr. Joanowitch's plan for keeping the Cabot Straits open involves the use of a number of powerful electrically driven air blowers, which would be placed on the coast of New Brunswick and Cape Breton. They would be used to divert the course of the ice so as to keep the straits open.

## Joint Stiffness Goes, Swellings Disappear Pain Is Subdued

No Lintiment Gives Such Universal Satisfaction As

## NERVILINE

It is the most penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It enters into the very heart of the pain, penetrates quickly through the skin, relieving the sufferer of his distressing condition. No lintiment compares in this relieving power with Nerviline. For the minor aches and pains that arise in the muscles, joints and bones, use it for Rheumatism, Lumbago, Neuralgia, etc. It is at all times.

## U.S. Firms Want Whitefish Scales

By-Product Gives Glistening Appearance to Artificial Pearls

As a by-product of Alberta's fishing industry, the scales of the whitefish have for some time been considered as waste. They are worth money, however, and a firm of manufacturers in Eastport, Maine, is anxious to purchase all that Alberta has to offer. The scales are used for the manufacture of artificial pearls. The compound being used to coat artificial pearls and is the material responsible for their glistening appearance.

At the present time the scales on the whitefish are a detriment to the fisherman, in that they represent weight on which freight is paid but from which there is no return, and it is estimated that should a business in fish scales be worked up it would mean a good deal to both the province and the fisheries.

The Oil of the People.—Many old men and some, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

## Airplane Tests Show Night Flying Best

Rising Moisture Caused by Sun Makes "Bumps" That Aviators Fear

Scientific study and experiments extending over a year and a half have proved that conditions at night are much more favorable to flying than in the day. This has resulted in the success of elaborately protected night flights in the recent sensational contest to coast north lights.

Tests have shown that troublesome "bumps" are much less common at night. The bumps result from the sun's rays on moisture-laden atmosphere arising from lakes, rivers, and even from forests, causing air currents to rise rapidly.

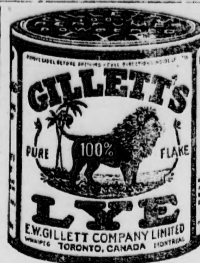

It also has been shown that the greater amount of oxygen in the air at night accelerates the motion. Seventy-five per cent. of the flyers have expressed a preference for "night runs."

## The Easier Path

Advocates Abstinence For Britain In European Affairs

A wife man can seek a refuge from pressing troubles in some of the many mansions of his mind. In the same way an Empire like ours can find on more shores than one an outlet for its energies and its products. France has embarked on a great experiment, and perhaps it is best that she should be allowed to complete her enterprise. England may then for the first time in its history be following a policy of abstinence in European affairs.—London Morning Post.

Minard's Lintiment Relieves Colds

## Soldiers On Farms

Army of 18,000 Engaged in Tilling the Soil

One of the most gratifying interests evolved from Canada's share in the war is shown by the report of those of its citizens who exchanged their bayonets for plowshares and are making productive areas out of its vast prairies. An army of 18,000 of them are engaged in tilling over 3,000,000 acres, and the Soldier Settlement Board perceives by the statement for 1922 that most substantial results have been achieved in all lines of agriculture, including livestock. Nothing proposed for the welfare of the country's defenders appears to have approached this institution in adding to the country's prosperity.—The Hamilton Spectator.

Worms in children's work shoes. These pests attack the tender lining of the intestines and, if left to pursue their ravages unchecked, ultimately perforate the wall because these worms are of the look variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms of whatever variety, but will serve to repair the injury they have done.

## Machinery and Handicraft

Old Craft Pride Is Fast Dying Out Is Claim Made

The dissatisfaction that exists in factories owing to the specialization necessary for mass production formed the subject of discussion at a meeting of the International Association of Public Employment Services held in Toronto. It was pointed out by various speakers that the "old craft pride" was fast dying out, as the days were gone when a workman could look upon a finished product and see in it the complete product of his hands. Now, says a workman had to devote his energy to turning out, in semi-automatic fashion, a small part of the whole article and the dreary monotony of his task gave rise to dissatisfaction.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Person.—"Poor Mrs. Anderson. It is a hard blow for you to be made a widow, but still there is a comfort or you."

Widow.—What is his address.

## MRS. ROSE PETERS

## Toronto Woman Advises Young Mothers!

Toronto, Ont.—"During all my years of wifehood and motherhood I have had the greatest relief from the child of Dr. Pierce's Favorite Prescription. I do not hesitate to recommend it to other women who need strength and help during expectancies. 'Favorite Prescription' relieved me of all manner of sick stomach, and kept me well and active during each of my four expectancies and periods. I feel quite sure that my babies were just as greatly benefited as I myself, for they were plump and exceedingly healthy from my first moment."—Mrs. Rose Peters, No. 552 Secord Street.

Health is most important to every woman. You cannot afford to neglect it. When your neighborhood druggist can supply you with Favorite Prescription, in tablets or liquid. This prescription is made in Dr. Pierce's Laboratory in Bridgeport, Ont. Send us prescriptions if you wish a trial package.

## NEW REX BEACH PICTURE HIGHLY SPECTACULAR

"Starring melodrama with all of the spectacular features and none of the crudities of this popular style of entertainment," is the classification that the motion picture officials have given to the new Rex Beach production of his great Alaskan railroad story, "The Iron Trail," which will be the feature at the Opera House on Friday and Saturday.

The new Beach production was made under the watchful eye of the famous author himself. Every location was approved by him as being faithful to the Alaskan country in which the theme of his story is laid, and the all-star cast that portrays the leading roles and the incidental characters were approved by him before any of the scenes were made.

In reproducing the spectacular railroad construction scenes, Mr. Beach in close collaboration with Director R. William Neill elaborated on his original vivid descriptions, and the reported result is that the film version is twice as blood-stirring as the book.

Swampy, rain and thaw, and the ferocious rush to lay the tracks of the pioneer railroad through the Alaskan wilderness before the terrific winter closed down on the workers, and the desperate opposition of enemies in human form a profusion of high spots that keep intense interest suspended from start to finish.

## BURNSIDE

What might have been a fatal accident occurred on Thursday evening at the home of Mr. Harry A. Pearson. For some time Mr. Pearson has been lavishing his attention on two very fine specimens of pidgeon. On this particular evening he returned from thrashing and was drawing a pail of water from his well when pidgeon, inattention for his supper and anxious to see what he was doing at the well, leaped too far over, overbalanced and fell in. Rushing to the phone, Harry called his nearest neighbor, Mr. Hugh McLean who with Mr. Hector Dinan made rapid time to the scene of the catastrophe. With the aid of a rope Mr. McLean rescued pidgeon and he was hauled to the top too much out of breath to speak. He has completely recovered and we understand, the Humane Society contemplate presenting Mr. McLean with a medal for his part of the evening work.

BORN—On Saturday morning, October 27th, to Mr. and Mrs. Lloyd Hahn, a son.

Mrs. Grevelt of Calgary addressed a meeting in aid of the temperance cause on Friday evening last in the Jutland school. In spite of the busy time a very fair sized crowd turned out to hear her address which was splendid. After some community singing and a reading by Mrs. Boulton lunch was served by the ladies.

Wedding bells are ringing east of us. Particulars next week.

Born dance in Mr. Joe Tabort's barn on Friday evening November 2nd. Everybody welcome.

Monday, the 26th of October was the first day of the Wheat Pools' operation in Alberta.

The Didsbury District U. F. A. and U. F. W. A. association which was to have met in Didsbury on November 1st has been postponed to November 15th because of the busy season.

T. R. Doherty, the Canadian Commissioner in the International Institute of Agriculture, estimates Canada's exportable wheat surplus this year at 300 million bushels, as against 150 millions from the United States, 110 from Argentina, 50 from Australia, and 10 from Russia. Canada, in fact, may be expected to supply nearly half the wheat exports of the whole world—300 out of 670 million bushels.

E. W. Beatty, K.C., President of the Canadian Pacific Railway, speaking at an important conference on his recent extensive tour through the Canadian West, sounded a note of optimism, declaring that the general improvement in Canadian business conditions rendered an accompanying growing pessimism entirely unjustifiable. Stressing the need for a vigorous, intensive immigration policy by the government, he put forward as suggestions that the department of immigration and colonization should issue a general invitation through Great Britain, the United States and certain European countries, for settlers, and that greater advantage should be taken of the favorable policies towards migration to Canada adopted by the governments of Great Britain and other countries.

Most extraordinary yields of grain are reported from the Provincial School of Agriculture at Olds, Alberta. On a one-acre patch 105 bushels of Manitoba wheat were threshed, which is believed to be a record for this crop, exceeding the 87 bushel yield of Sugar W heels, which was previously considered unsurpassable. From an acre seeded to oats, 30 bushels were threshed. Earlier similarly yielded exceptionally. On a field of 27 acres an average of 70 bushels to the acre was secured, whilst on another, 10 acres of a different variety, a yield of 80 bushels to the acre was recorded.

Eighty per cent of Canada's national debt is owed by Canadians. Bank deposits in this country at the close of the last fiscal year, March 31st, 1923, totalled \$1,218,000,000, an increase in two years of \$750,000,000. The year's trade records show Canada's foreign trade to be \$1,000,000,000, an increase of \$251,000,000 over last year, and Canada's exports to exceed her imports by \$107,000,000, forty-two per cent of these exports being finished products.

## PUBLIC SALE

Friday November 9th, 1923, at 1 p. m.

### Westerdale Municipality

NOTICE OF BY-LAW No. 14

PUBLIC NOTICE is hereby given that the following By-Law is now in force in the Municipal District of Westerdale No. 311.

A By-Law of the Rural Municipality of Westerdale No. 311 to regulate the possession of Portable and Tractor Engines over any culvert or bridge upon the highways in the Rural Municipality of Westerdale No. 311. The Council of the Rural Municipality of Westerdale No. 311 enacts as follows:—

(1) No person shall run any Portable or Tractor Engine over any culvert or bridge on any highway in the Rural Municipality of Westerdale No. 311 unless and until such person shall strengthen and protect, at his own expense, such culvert or bridge by laying down three inch plank at least twelve inches wide under the wheels of such Portable or Tractor Engine, the planks to be used to strengthen such bridge shall be at least twelve feet long and plants used to strengthen culverts shall be of sufficient length to cross such culvert in one length, so as to distribute the weight and protect such culvert or bridge from any damage resulting from such Portable or Tractor Engine being run over or across same.

(2) A Any person convicted of a breach of this By-Law shall be liable on a summary conviction to a fine of not more than Ten Dollars, (\$10.00) for each such offence, and in addition, for damages to the extent of any damage caused to such culvert or bridge by reason of such infraction.

B The amount of such fine and damages with costs of prosecution may be levied, if not sooner paid, by distress and sale of the goods and chattels of such person.

W. S. CLARKE, Reeve.  
A. McNAUGHTON, Sec. Treas.  
Rural Municipality of Westerdale No. 311.

Done and passed Sept. 29, 1923.

## "Raw From Eczema Doctors Do Their Best"

"Forty years I suffered. One day new medicine was brought to me. I tried it before what I suffered. It was D.D.D. and for three years I haven't had a sign of eczema."

These words are taken from the letter of Mr. Foster, Chester, Ontario. Mr. Foster writes: "I have been suffering from Eczema for forty years. I have tried every doctor's treatment, but nothing has helped me. I have been told that I should try D.D.D. for skin disease and I have tried it. I have used it for three years and I have not had a sign of eczema. I have been told that I should try D.D.D. for skin disease and I have tried it. I have used it for three years and I have not had a sign of eczema. I have been told that I should try D.D.D. for skin disease and I have tried it. I have used it for three years and I have not had a sign of eczema."

## LIQUOR REFERENDUM

### NOTICE TO VOTERS

Instructions to Voters as to Method of Marking the Preferential Ballot to be used in the Liquor Referendum in Alberta on Monday, November 5th, 1923.

Issued Under the Authority of the Government of Alberta.

#### THE BALLOT

#### (a) Prohibition—

Meaning thereby, a continuance and development of the present Liquor Legislation; that is, meaning the Abolition of the sale of all Liquors excepting for strictly Medicinal, Sacramental Manufacturing and Scientific Purposes.

#### (b) Licensed Sale of Beer—

Meaning thereby, the Sale of Beer in Licensed Hotels and other Premises, as provided in the proposed Temperance Act.

#### (c) Government Sale of Beer—

Meaning thereby, the Sale of Beer by or through Government Vendors for consumption in Private Residences under Government Control and Regulation—other Liquors to be sold through Doctor's Prescription for Medicinal Purposes.

#### (d) Government Sale of All Liquors—

Meaning thereby, the Sale of all Liquors by or through Government Vendors. Beer to be consumed on licensed Premises and in Private Residences. Wines and Spirits to be purchased in limited quantities under permit issued by the Government, under Government Control and Regulation.

#### INSTRUCTIONS TO VOTERS

The Voter MUST NOT use the X mark. He should mark the figure 1 opposite the question he wishes to become law. He should then mark the figure 2 opposite the question he would select as second choice, the figure 3 opposite his third choice, the figure 4 opposite his fourth choice. He must make no other mark on the ballot. The voter may "plump" for one question alone, using the figure 1, without spoiling his ballot, or he may vote for only two or three choices.

Voters are urged, however, to vote the full extent of their four choices. There is always the possibility that the question of his first choice will not carry. In that case he should have a second choice, and a third choice, and a fourth choice. Only by marking the full number of choices does the voter obtain the full benefit of the preferential ballot, and the government obtain a complete expression of the opinion of the people.

## GILLETT'S 100% PURE FLAKE LYE

This famous household cleaner and disinfectant is now made in *Crystal Flakes* instead of powder. It is the best household lye on the market. Use it for cleaning and disinfecting sinks, closets, drains, etc.; destroying vermin; softening water; making soap cleaning floors, greasy pots and pans, etc.; removing paint, etc.

## WORLD HAPPENINGS BRIEFLY TOLD

Vancouver port has already doubled last year's grain handling.

King Alfonso has signed a decree abolishing the jury system in trials in Spain.

Eighty per cent. of the harvesters who came here from Great Britain will remain in Western Canada, Canadian National Railway officials estimate.

Loss to the Japanese navy by the earthquake is estimated at \$100,000,000 by Admiral Taka Taka, Minister of the Navy.

Warning to unemployed not to flock to the coast in search of work was issued by J. D. McNeill, Deputy Minister of Labor.

For twenty years a missionary to Japan for the Methodist Church, and a graduate of McGill class, 1881, Mr. Margaret Gray, 61, died at Montreal, Oct. 1.

Oct. 2 marked the one hundred and sixtieth anniversary of the meeting on October 2, 1788, at Halifax, of the first popular assembly in British North America.

By a decree of the Minister of the Interior the sale of Simplicissimus, the German comic newspaper, has been forbidden in France, and the police have received orders to seize copies already in circulation.

## WELL-MERITED SUCCESS

A distinguished citizen, honored politically and professionally, Dr. R. V. Pierce, whose picture appears above, made a success few have equaled. His pure herbal remedies which have stood the test for fifty years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a blood medicine and stomach alternative. It clears the skin, beautifies it, increases the blood supply and the circulation, and pimples and eruptions vanish quickly. Beauty is but skin deep and good blood is beneath both. For your blood to be good, your stomach must be in condition, your liver active. This Discovery of Doctor Pierce's puts you in fine condition, with all the organs active. Ask your nearest druggist for Doctor Pierce's Golden Medical Discovery, in tablet or liquid form, or send 10 cents for trial package of tablets to Dr. Pierce's Laboratory in Bridgeport, Ontario.

W. N. L. 1493

## History of Electric Light

World-Wide Illuminant Made Possible By Years of Research

"History of Electric Light" is the title of a pamphlet just issued by the Smithsonian Institution dealing with a subject of almost universal interest. Many of the inventions described in it are now exhibited in the United States National Museum in the displays of mineral and mechanical technologies and the numerous illustrations are largely taken from photographs of these. At the present time, there are about 500 million incandescent and about 200,000 gas-filled lamps in use in the United States alone and about an equal number of incandescent lamps in use in other countries. This world-wide use of electricity as an illuminant was made possible by patient research and experimentation through a period of one hundred and twenty-three years by many men of many nationalities, each approaching the problem from his individual viewpoint, and each with widely differing aims to be accomplished by its solution. The scientist, solely wishing to demonstrate the existence of certain physical laws, the practical electrician taking up the work of the scientist and applying it to everyday problems, such as the lighting of streets and houses. The successive steps in the development of our present well-known forms of the incandescent electric light are clearly and interestingly presented in this pamphlet.

## Colds Stopped In Ten Minutes

There is a new remedy—it fills the nose, throat and lungs with a healing balm from the pine woods, and soothes that marvelous sense of the Blue Gum Tree of Australia.

The remedy is "CATARRHIZONE"—and you can't find its equal for colds, coughs or catarrh. Composed of medicinal pine essential oils of nature, that's what CATARRHIZONE is, and you'll find it mighty quick to act and it cures in ten minutes.

Don't expose your stomach with cough medicines—use CATARRHIZONE, which is scientific and certain. It will act quickly. Two months' treatment guaranteed, \$3.00; small (trial) size, 50c. Sold by druggists everywhere. By mail from The Catarrhizone Co., Montreal.

## Cool Output Increases

According to figures provided by the preliminary report on mineral production in Canada for the first six months of 1922, Alberta has produced in those six months a total of 5,312,991 tons of coal compared with 2,258,296 in the same period of 1921.

Halloway's Corn Remover takes the corn out by the roots. Try it and you'll be convinced.

Ship Poultry to Eastern Canada. Improvements that warrant much attention for future business, have been made in the shipping of poultry to Eastern Canada, according to a statement of J. Haffare, Alberta Provincial Poultry Commissioner. Eastern dealers have recently commented upon several shipments as having been satisfactory.

Externally or Internally, it is Good. When applied externally, by brisk rubbing, Dr. Thomas' Eucalyptic will open the pores and penetrate the tissue, touching the seat of the trouble and immediately relieving it. Administered internally, it will all the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

## The Aim of Life

The great thing is to tackle life in a spirit of adventure. The main object is not to win, it is to live. Winning or losing is an issue beyond human control. Effort is not. Nothing is easier than to identify the line in which effort and aspiration of some sort are present. These light it up as they can a landscape. Broad winning is only the body of life. The soul of life begins in whatever plus element of voluntary effort is added over and above the sheer necessity of bread winning.—Boswell Globe.

Did you ever see a fellow walking around on his knees while waiting for a dead man's shoes.

Minard's Liniment for Headache

## Distribute Handsome Profits

Hearst Music Publishers Are Making Remarkable Progress

The Hearst Music Publishers, Limited, announced in Winnipeg last week that options had been secured and plans were in hand for the construction of their own head office building in a prominent downtown location in that city. This information is of interest to the public, as well as to the numerous shareholders. In that company, throughout Manitoba, as marking the remarkable progress being made by this company.

This company, formed by Manitoba men, has in two years created a continent-wide organization for the sale and distribution of popular songs, which it produces and publishes, and has made and distributed profits which cannot be highly gratifying to the fortunate individuals who participated in its initial organization. The stock of this company has recently been taken off the market, and none is now available. The last dividend declared by the company, for distribution about October 15 is of 10 per cent. cash, making total distribution to shareholders during 1922 of 50 per cent. in cash and 15 per cent. in stock. This has worked out to give each shareholder who possessed a majority share of \$100 on December 31 last, \$58.25 in dividends during the year, besides an addition of 15 per cent. in his stock.

The company has distributed many of its popular songs in five large editions. For songs, it has had branch offices established in Toronto and New York, and is now opening branches in Chicago, Philadelphia, Boston, Pittsburgh, St. Louis and San Francisco, in the U.S.A. in Montreal and Vancouver in Canada, and in Melbourne, Australia. The company also distributes its songs in Great Britain, through the old established firm of B. Feldman & Co., London.

Joseph N. Hearst, of Winnipeg, is personally known as a song writer, is President and Managing Director of the company. John W. Wilson, Esq., M.P.P. for St. James, and a prominent Winnipeg barrister, is Vice-President; and the other officers are: Gordon A. MacLean, Esq., of Winnipeg, Secretary, and John Anderson, Treasurer and Professional Manager. The directors in addition to the above include Andrew Lloyd and Carl Fink, of Winnipeg; W. H. Garfield, of Barrie; Winnipeg; William Dempsey, of Killarney, Man.; and Everett Evans, of New York, N.Y.

## Children Cry For "Castoria"

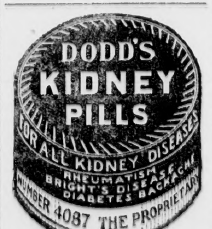

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 20 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Barrenness, allowing sweetness and ingenuity, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving natural sleep without opiates.

The genuine box signature of

Our Ancestors

Every human being on the face of the globe is connected to the demand of Nature to have her parents, her grandparents, and great-grandparents, 16 ancestors in the fourth generation back, 22 in the fifth, almost 1,000,000 in the twentieth, and nearly 1,000,000,000 in the twentieth. The whole number of men's ancestors in the fifth generation is 5,382,741,214, 214,046 a multitude which no man can number.

## The Tobacco of Quality

Manufactured by Imperial Tobacco Company of Canada Limited

The world's largest boiler turns 19,000 pounds of water into steam each hour.

## GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not catch; that the health of the little one will be good and that he will thrive and be happy and good-natured. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Jg. Williams' Medicine Co., Brockville, Ont.

Too Much Entertainment Dominion Premiers Cannot Accept All Hospitality Shown

With great tact the Dominion premiers, who are in London for the Imperial Conference are understood to have made known the fact that it was impossible for them to keep on working during the conference if they accepted all the hospitality that has been designed for them and are continuing eating.

In consequence of this gentle hint, the prospective hosts of the conference do not expect them to attend more than a small percentage of the banquets which they have arranged and have intimated that the menu of these will be made less sumptuous than at first projected.

The Daily Mail, upon this decision, recalls the Imperial Conference of 1907 when the late Sir Wilfrid Laurier, the late Premier (Boha) of South Africa, and the late Dr. Leader Star Janellon, Premier of Cape Colony, were all simultaneously through overhauling while attending the conference.

The Man With Asthma almost goes to death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fought with never ceasing fear of renewed attacks. Let him turn to Dr. D. Kellogg's Asthma Remedy and find that complete relief it can give. Let him but use it carefully and he will find his asthma a thing of the past.

For World Peace Progress toward world peace is made by gradually adjusting the causes of international discord, by editing in here and there, by cultivating the habit of national reasonableness and good will. It is not made by any single such as a league covenant which fails to place at the first attack—Sutton City Star.

Very Kind of Her Luck—You can get much heating experts two dozen from here—they're coming home. Thanks, ma'am. I might or I might not like it but I don't mind it.

Minard's Liniment for Headache

## To Manufacture Insulin

A building has been acquired by the University of Toronto to be entirely devoted to the manufacture of insulin, the product discovered by Dr. Banting and the University of Toronto. This will be the only factory in Canada to manufacture the curative fluid in commercial quantities and, although it is manufactured in the United States, Great Britain and Denmark, the Canadian product will be sold throughout the world.

The estimated weight of the earth is 5,972,000,000,000,000,000 tons.

## PILES

Do not suffer with Piles. Use Dr. Chase's Ointment. It cures in one week and affords lasting benefit. 50c. a box; all druggists, or J. B. Chase & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp for postage.

#### AROUND THE TOWN

For Market Report see page 4.

Don't forget the Rugby entertainment at Rugby schoolhouse on November 23.

Now is the time to order your Christmas cards. A card with your name printed on is quite distinctive. See our samples.

In a fast game of basketball between Didsbury and Carstairs here last Friday night, Didsbury won, the score was 24-20.

As will be seen in our advertising columns Mr. John Liesemer has decided to start a milk route in town. He is getting tested cows for this particular purpose and will supply his customers with clean, pure milk.

The Didsbury Women's Institute have arranged for the sale of poppies on Saturday for the G. W. V. A. Be sure and have a ten-cent piece or a quarter laying loose in your pocket on this day to help the good cause along.

The Presbyterian Ladies A.M. will hold a chicken supper on November 8th at 6 o'clock in the Opera House. A programme has been arranged and Capt. Shaw, M. P. will give an address. Adults 50c, children 25c. Everyone cordially invited.

You can hear both sides of the story—Prohibition or Moderation—at the Opera House this week. The Prohibitionists will hold a big meeting on Thursday night at 8 p. m., while the Moderationists will hold forth on Friday night, commencing at 7 p. m.

The W. C. T. U. will meet at the home of Mrs. Dong's on Thursday, November 8th at 2 o'clock. Subject for this meeting: The great need of continuous education along the line of prohibition. Will every woman come and join us to help fight this monstrous demon, the Liquor Traffic?

Nine members of King Hiram Lodge, A. F. and A. M., attended a Lodge of Instruction held at Imbiss, full on Thursday evening last. Bros. W. P. Sick, T. Thompson, J. McGhee, Morgan, MacMillan, A. Fisher, A. Brown, S. Franklin and E. E. Freeman were members from Didsbury who report having an excellent time with the members of the Craft at Imbiss.
